Appendix 1: Classroom Observation

Teacher: Assalamualiakum wr.wb. Good morning students?

Students: Waalaikumsalam wr.wb. Good morning ma'am.

Teacher: How are you this morning?

Students: We are fine, how about you?

Teacher: I'm fine too. Nice to meet you.

Students: Nice to meet you too.

Teacher: Before we start the study, let's pray together. Begin. Alright, the prayer can be ended.

Teacher: Who is absent for today?

Students: One student is sick ma'am.

The conversation in the classroom shows that the teacher conducts questions and answers with students starting with greetings, and the teacher checks the students' news and the presence of students in the classroom.

Teacher: Today, we're going to learn about stories using digital storytelling. Do you know what digital storytelling is?

Students: I don't know yet, ma'am.

- Teacher: Let me show this material in the form of a power point, take a look and try one of the students to read it!
- Student: Okay, ma'am. Digital storytelling is the best medium for telling stories by using digital technology and incorporating digital stories.

Teacher: Alright, good. Next question, what do you mean by motivation?

Student: The urge that arises in a person consciously or unconsciously to perform an action with a purpose.

Student: Hmm... like a confidence boost.

Teacher: Yes, that's right. Let's watch together with the example story on the screen, everyone please pay attention.

The conversation above shows that the teacher introduces students to digital storytelling, the teacher also asks if students know what digital storytelling means, then the teacher displays the material according to what the teacher has prepared in the lesson design document related to digital storytelling.

In the core activity stage, the teacher introduced digital storytelling as the media used during the vocabulary learning process or can also be said to be learning speaking skills in class. Then, the teacher explained the material. Next, the teacher discusses and shares a video about "The Lost Dog" while explaining the meaning of the story. Students are directed to use digital storytelling while paying attention to their motivation. After watching the video, the teacher checks the students' vocabulary by asking questions about the meaning of the story. Next, the teacher invited students to use technology by moving forward. And also directed to better understand some vocabulary in the story shown.

Tecaher: Regarding what I said today, do you understand what the essence of today's lesson is?

Students: Yes mum, we understand

Teacher: So what story did I show you earlier?

Students: The story with the title "The Lost Dog" ma'am.

Teacher: Can anyone tell me what the lesson is from the story?

One of the students who was previously low motivated finally answered

Student: We should never give up, we should try when we have a goal, whatever it is.

Teacher: Yes, that's a very good statement. we should never give up and we should try, even though we don't know what results we will achieve, at least we keep trying.

Teacher: Then what is digital storytelling?

Students: Storytelling using digital tools ma'am.

- Teacher: That's right, well everyone is good at it. Since the time has shown that the learning time is over, let's end the lesson by saying hamdalah together.
- Students: Alhamdulillahirabbil Aalamiin
- Teacher: Thank you for following the lesson from beginning to end, Assalamu'alaikum wr.wb.

Students: Waalaikumsalam wr.wb

Based on the first observation, it can be concluded that students are motivated to learn vocabulary to learn to speak. Teachers and students can discuss the vocabulary material through digital storytelling. Digital storytelling makes them actively ask and actively answer questions about vocabulary in story. They are interested in learning using digital through group discussion. Their ability to find new questions is very fast. The teacher did several stages of teaching by using digital storytelling. Finally, the students are focused and active in the classroom learning.
