

MOTTO AND DEDICATION

This paper I dedicated for my beloved family, bloodlines, colleges, and Gaza — the People of Jannah. And *for myself*. The circumstances of I highlight this topic into my bachelor paper are because this is the thing I could do as a speak up for partiality of Palestinian. Apart from that, I desire that young version of me was acknowledged whom I should be in the side for. I truly blank to which side should I choose for back then. I started wondering about that back again when I was in my 4th or 5th semester of uni, before the 7th October 2023 incident. The incident of 7th October was made me open up widely and visibly crystal clear on which side I should choose for. And here I come to save multiple individual and present among us that we should stand for Palestine.

Me in real life kind of look up in the screen which my adult self meet with my young self and say, "お前を助けてやるって前もって言ったんだ"
Oh dear, it's our story

May this academia journey continuing until my dying day.

Long Live, Palestine

Free Palestine

Gaza — a place to which we will one day return. (Minimslm)
